Dear Friends,

As we ponder the future of our building, we are excited to see how our grantmaking programs are growing. We have so many new grants to report on—44 of them in this issue of *Muste Notes* alone—that we've barely managed to fit them into our expanded six-page format.

Your generous contributions make these grants possible. Our deepest thanks go to those of you who responded to our recent appeal. Regardless of what happens with our building, your continued support will allow us to keep funding nonviolent grassroots activist projects around the world.

Sincerely,

Murray Rosenblith
Executive Director

Defending Communities Against Dams

PHOTOS BY MAPDER

From July 19 to 22, 2007, more than 300 activists from throughout Central America, Mexico and beyond gathered in Chalatenango, El Salvador for the 4th Mesoamerican Meeting of the Latin American Network Against Dams in Defense of Rivers, Water and Communities, or Redlar, as the network is called for short. The meeting was dedicated to the memory of Salvadoran activist Gerson Roberto Albayero Granados, a member of MONARES, the El Salvador National Movement Against Dams, who was murdered in January 2007. The participants pledged to continue struggling for water and energy policies that are community-controlled and sustainable, and to defend the rights of people who are displaced or threatened by hydroelectric mega-projects. In June the *Muste Institute* granted \$1,800 to MONARES, the host organization, for the Redlar meeting, and another \$5,475 from our NOVA Travel Fund (see page 4) to help delegations traveling from Mexico, Guatemala, Nicaragua, Panama and Brazil.

VOL. 15, NUMBER 1

FALL 2007

The Future of the *Muste* Building

The *Muste Institute* is currently facing some tough decisions. A recent survey by an engineer revealed that our three-story building at 339 Lafayette Street requires major structural repairs. The building's condition is not immediately dangerous, but we have had to put up scaffolding across the facade and it must remain in place until repairs begin. Initial estimates put the cost of basic repairs at \$1 million—just to stabilize the building's exterior, while leaving the

interior space in its present condition.

The War Resisters League moved to this building in 1969, and in 1974 the *Muste Institute* was founded in part to buy the building and maintain it as a permanent center for social change organizing. We currently lease out the ground floor storefronts to commercial businesses to help generate enough income so we can operate the building while providing subsidized rent to the activist groups that occupy the upper two floors.

It would take an extraordinary fundraising effort—and probably a very long time—to raise an extra \$1 million for repairs, on top of what we need to maintain our grantmaking and other programs.

The *Muste Institute's* Board of Directors is considering several options to ensure the long-term stability and growth of our programs supporting the nonviolent activist movement:

- Selling the building and buying an office loft condominium. Initial inquiries suggest that we would get enough from selling our building to be able to buy an office loft space that could house our own offices, the War Resisters League and other activist groups. We would get upgraded, accessible office and meeting space, and a modest endowment to offset maintenance costs.
 - Selling off the ground floor as a separate retail condominium and using the proceeds to make the necessary repairs. If we generate enough income from this sale we could also upgrade the existing office spaces. This option would allow us to remain in the building, and would free us from having to act as a commercial landlord for the ground floor stores. We would still be responsible for building main-

Counter Recruitment Fund Grants, June 2007

The *Muste Institute's Counter Recruitment Fund* makes small grants for grassroots efforts to inform young people about the realities of military service, help them protect their privacy from recruiters and refer them to non-military education and employment options. Our next deadline for proposals is October 19, 2007. Guidelines are on our website at www.ajmuste.org/counter-recruit.htm.

Albany Peace Seekers, Albany, OR: \$500 to provide high school students with materials and information about military recruitment.

American Friends Service Committee - Mid-Atlantic Region, Baltimore, MD: \$500 for counter recruitment workshops and expanded outreach to Latino youth.

Caribbean Project for Justice and Peace - Proyecto Caribeño de Justicia y Paz, San Juan, PR: \$500 for workshops and distribution of information in schools and universities to inform youth in Puerto Rico of the implications of entering the armed forces.

Coordinadora Estudiantil de la Raza (NoSomosELArmy), Los Angeles, CA: \$1,500 for counter recruitment tabling, film screenings, teach-ins and other events at Los Angeles area high schools.

"Sgt. Abe the Honest Recruiter," developed by Quaker House of Fayetteville, examines and debunks, line by line, the claims made in the standard military enlistment contract.

CHOICES, Washington, DC: \$1,000 to inform Washington, DC youth and students about opportunities for further education, job training, and employment outside the military.

Finding Alternatives to Military Enlistment (FAME), Detroit, MI: \$1,000 for counter-recruitment outreach to Latino, Arab-American and Muslim youth in and around Detroit.

Koinonia Partners, Americus, GA: \$500 for training in counter recruitment outreach to impact high school age

youth in low-income communities of rural South Georgia.

Lehigh Pocono Committee of Concern (LEPOCO), Bethlehem, PA: \$500 for tabling, information distribution and outreach at high schools in Pennsylvania.

Mid-South Peace & Justice Center, Memphis, TN: \$1,500 for the Alternatives to the Military Project, informing low-income high school youth in the Memphis area about opt-out rights, ASVAB testing and other recruitment issues.

National Network Opposing the Militarization of Youth (NNOMY), Bethesda, MD: \$500 to develop a website to better facilitate resource-sharing and coordinating of counter recruitment efforts regionally and nationally.

Quaker House of Fayetteville, Fayetteville, NC: \$1,500 to develop new animated versions of "Sgt. Abe, the Honest Recruiter" educational materials, and for translation of existing Sgt. Abe printed materials into Spanish.

Whatcom Peace & Justice Center, Bellingham, WA: \$500 for tabling and other counter recruitment outreach at high schools and tribal and community colleges in the area of Bellingham, Washington.

Building *(continued)*

tenance and would probably not end up with any extra money.

- Borrowing the money to do the necessary repairs, and providing a long-term net lease to a commercial company for the ground floor spaces. The lease would allow us to pay off the loan more quickly. We would still be responsible for maintaining the building, but would not have to manage the storefronts. We would retain full ownership of the building. This option won't leave us with any extra money initially, and we will likely carry a debt for some period

after the repairs, but the lease arrangement could eventually contribute to our financial stability.

We have been researching all of these options and need to reach a decision soon. We encourage you to renew your commitment to the *Muste Institute* and help us maintain and expand our programs while we tackle this challenge. Whatever route we take, our first priority is for the *Muste Institute* to go into the future as a stronger resource in the nonviolent struggle for social justice.

Oaxaca Resurgence

Volunteers at Casa Chapulin in the southern Mexican state of Oaxaca have been kept busy documenting and supporting the ongoing struggles of the region's grassroots movement for social justice. In June 2007, the social movement in Oaxaca took to the streets again, with the teachers' union, the APPO (Popular Assembly of the Peoples of Oaxaca) and other social organizations installing a sit-in at the zócalo (town square) of Oaxaca city, demanding the resignation of governor Ulises Ruiz Ortiz and the release of activists arrested over the past year. Casa Chapulin was started in September 2006 with support from the Muste Institute. In these photos from April 2007: activists demonstrate in front of the Santo Domingo church in Oaxaca city to demand freedom for political prisoners; and participants from 20 indigenous communities of Oaxaca take part in a workshop to learn how to build radio transmitters for community radio initiatives.
